week.

The Rev. Henry E. Duers, pastor of the Star of Bethiehem Colored Baptist Church, of this village, has some peculiar ideas concerning the motives that impelled the Union soldiers to enlist during the war. He asserts that they went to war more for the bounty they obtained than to save the Union or free the race of which he is a representative. This opinion, he says, he has advanced in more than two hundred lectures, which he has given throughout the country. On Saturday last Parson Duers had a disagreement with Village Trustee Carrol H. Stevens, at the latter's livery stable. Mr. Stevens is an old soldier and a member of the Grand Army post of this village, consequently, when Mr. Duers repeated his opinion concerning the mercenary motives of the soldiers of 1861-186, Mr. Stevens became angry and ordered Duers off his premises. As the parson did not comply with the request, but continued to assert that the old soldiers were a lot of bounty-impers, Mr. Stevens hastened his departure with considerable force of arms, and a sult for assault in the third degree followed. The case was heard before Police Justice Palmer on Wednesday, Duers appearing in person for the prosecution. After witnesses were examined the Justice took the papers, with the announcement that he would give a decision in a day or two. It is understood that Mr. Duers will not gain much by his suit, as the evidence seemed to warrant the belief that the offence was justified by the provocation.

NORTH TARRYTOWN

For some time the citizens of this village have been engaged in a dispute over the future location to the Andrews Building, in Beekman-ave, while others insisted that it should remain where it is. Some time ago it was decided to move the office, and then the opponents made an appeal to the postal authorities at Washington, which resulted in an inspector being sent to look the ground over. As a result, Postmaster Swift has been informed that the Postoffice Department has decided to confine the proposed removal of the office to the Beekman-ave. site.

The lake is so arranged with sluice gates that at ach high tide is a change of water. One of the gates is secured with an ordinary staple of large size. The only theory that has been advanced is that Minnie succeeded in working this open. At any rate, at feeding time Monday only twenty seals responded, and when a search for the rest was made the sluice gate was found open. The chances are that the seals will never be recaptured unless

caught by accident in a fisherman's net.

The seals are peculiarly timid, and will keep away from shore when bathers are about. There is no reason why they should not live and breed in the Sound if they can obtain sufficient food. The average seal will eat fifty pounds of fish a day, and average seal will cat lifty pounds of lish a day, and will go into a decline rapidly for lack of food. Nature has provided them with a blanket of fat nearly an inch thick, which protects them from cold. It requires constant feeding to sustain this covering. As there are many varieties of fish in the Sound, the chances are in favor of their living well and multiplying, which will be sad news to fishermen, for they are particularly fond of young fish.

The management of Glen Island has offered \$600 ward for the return of Minnie alive. The seals the harmless, can be carried in the arms like kitns, and become peculiarly affectionate to those ho feed them.

tens, and become peculiarly affectionate to those who feed them.

A dispatch from New-Haven to Professor L. M. McCormick, at Glen Island, yesterday announced that several seals were seen by fishermen a few miles up the Sound in the morning, and a steam launch put off after them, but the amphibians managed to get out of sight before the launch reached them. Two young men of Sea Cliff say they saw six of the missing seals yesterday. The fishing was good until the seals appeared, when the fish began to travel away at a lively rate. The seals would not come near the boat at first, but the men began to throw fish over to them, and then they came close and for some time followed the boat about, and came sufficiently near to take fish from their hands. The men endeavored to lure them to shallow water, but the seals, after consuming all the fish thrown to them, swam away.

MORE LLOYDS CONCERNS LIKELY TO GO.

CRITICISM OF INSURANCE MEN ON ONE FEATURE OF THE PLAN.

More Lloyds fire insurance concerns are tottering in the wake of Whipple & Co.'s failure, according to rumors flying around Pine-st, and its neighborhood yesterday. Ever since the investigation made last winter by the county authorities into the methods of certain Lloyds, it is said that a number firms doing a reputable business have decided to reorganize instead of continuing on the old so-called charter rights, many of which were purchased as legitimate papers, but which have been shown to be bogus documents created for speculative pur-poses. The disappearance of J. L. Parraga and David Casey, attorneys for the South and North American Lloyds, one of three managed from the office of Whipple & Co., at No. 25 Liberty-st., has left the affairs of this Lloyds in a chaotic condition. The fire losses of the New-York and Chicago Lloyds another concern operated under the name of Whip-ple & Co., were also found to exceed the cash on hand, and Willar H. Baylis, counsel for the under-writers, said yesterday that fire claims could not be paid in full, according to the amount of liability assumed by each underwriter.

One feature in the scheme of Lloyds evoked much

criticism among insurance men yesterday. One

"As pointed out frequently, when bogus Lloyds were being investigated, the whole scheme of certain insurance concerns is questionable, and time tain insurance concerns is questionable, and time will bring about more of just such results as seen in the case of Whippie & Co. The trouble lies right in that significant clause which appears usually in little type away down at the bottom of their policies—the colored person in the wood pile. This clause says: The aggregate liability of each underwriter on all policies now or hereafter in force, after the application of the unexpended premiums shall not exceed \$5.000. You see by this that each underwriter expects to pay no more than the stipulated amount as his share of all the fire losses that are entailed—all the losses, mark you; not what he limits himself to on one policy, but for all the policies together. And when a dozen or so underwriters, who individually represent large means, are advertised as behind a business, the supposition of the unthinking is that these wealthy underwriters are surely good for all the losses incurred. Such, however, is not the real situation, in view of the fact that each underwriter holds himself as responsible for only a total of a few thousand dollars. Of course, the money received from policy-holders is expected to be used in the payment of losses, but when the losses are far in excess there is no guarantee for the policy-holders sustaining losses by fires, as in the case of the New-York and Chicago Lloyds." will bring about more of just such results as seen

STRIKERS' RANKS INCREASED.

DISAGREEMENT BETWEEN THE CONTRAC TORS' AND TAILORS' ORGANIZATIONS.

The conference between the Contractors' Associa tion and the committee appointed from the Brotherhood of Tailors, who are on strike, began at 10 o'clock yesterday morning, at No. 50 Essex-st., and ended at 5 p. m. with no results very satisfactory to either side. The agreement, which had been drawn up by the Brotherhood, was brought before the conference, but was rejected by the contractors, and the alliance between the two organizations which has existed since the starting of the strike has now come to an end. Immediately after the meeting was over, the contractors went into executive session at their headquarters in Roberts's Hotel No. 200 East Broadway. At the same time the strikers made arrangements with Messrs. Scholum and Bradley, lawyers, and engaged headquarters at Ludlow and Grand sts., where opportunity will be given individual contractors to sign the agreement. Each contractor will be obliged, upon sign ing, to furnish, as guarantee, the sum of \$25 in eash or a note for the amount, payable on demand, for each machine in operation in his shop. Any a leged violation of his agreement will be referred to the Grievance Committee for investigation, and if it proves to be true the guarantee will become forfeld to the general fund of the Brotherhood.

The strikers held a mass-meeting at Walhalla Hall in the afternoon, and the report of the contractors' action in rejecting the agreement was explained by Mayer Schoenfeld, and met with shouts The police of the Delancey-st. and Eldridge-st.

on Tuesday, under police protection, and their action has served to arouse the striking tailors. The Children's Jacket-Makers' Union, No. 155, of the Socialist Trade and Labor Alliance, and formerly members of the Knights of Labor, struck this morning as they had agreed the night previous. They number 3,000 men and women, and were in employment at 223 different shops. It was stated at their headquarters, No. 21 Suffolk-st., that the strike was started solely because the manufacturers had broken the agreement which was made last year. This agreement called for fifty-nine hours' work a week from the men, and fixed the following scale of wages: First-class operators, \$17 to \$14 a week; second-class, \$14 to \$9; third-class, \$10 to \$6; first-class basters, \$13 to \$1; second-class, \$10 to \$6; first-class basters, \$13 to \$1; second-class, \$10 to \$1; manufacturers had they were allowed to earn hardly enough to live on. They also say that these prices were cut, and that they were allowed to earn hardly enough to live on. They also say that they were obliged to work overtime without extra pay. Several of the minor tailors' unions held secret meetings yesterday morning, but took no definite action. The Fantsmakers' Union will hold a meeting at No. 181 Ludlow-st. to-night, and will probably decide to strike, as they have several grievances to be adjusted. merly members of the Knights of Labor, struck

ERUPTION OF KILAUEA.

Information comes from Hawaii that the great volcano Kilausa broke out with extraordinary activity on July 11 last. Two new lakes of fire have been formed, and the spectacle now presented by the immense crater in eruption is most impressive the immense crater in eruption is most impressive and magnificent. Numbers of interested people are arranging to go to Honolulu to see the eruption. The direct service of the Oceanic Steamship Com-pany from San Francisco, with sailings on August 1 and 29 and September 17, is a highly convenient route. Thomas Cook & Son, No. 26: Broadway, New-York, are the agents of the company.

EAGLE CAUGHT OFF BEDLOWS ISLAND. "Jim" Rethel, the ticket-chopper on Bedlow's

Island, yesterday caught what he thinks is a young American eagle. He was fishing for weakfish off the Island about noon when he saw a large bird, evidently nearly exhausted, struggling on the surface of the water. Reithel rowed to the place, and se-cured the bird. It measured four feet from tip to tip. When the bird had been fed and recovered its strength it became extremely savage, and would allow no one to approach it. An attempt will be made to tame the captive and keep it on Bedlow's Island as a pet and curlosity.

AN EX-POLICE SERGEANT HURT. Ex-Police Sergeant Charles H. Pless, who was

for many years connected with the Church-st. station, was severely injured last Thursday by a team County, N. Y., while trying to rescue his son, William, seventeen years old, who had become entangled in a hayrake to which the animals were The boy was in a field on his father's farm raking

hay, when the pole snapped in two, causing the horses to take fright and run away. One of them was struck in the thigh by the jagged end of the pole, cutting a deep and painful wound. In his efforts to stop the team young Pless fell in front of the rake, and was gathered up and dragged along, a the rake, and was gathered up and dragged along, a prisoner.

As the frightened animals dashed through a fence into the road the sergeant espied them and ran to their heads, making franctic efforts to seize theh bridles. He was knocked down, and before he knew it gathered in by the rake like so much hay.

The rake caught in a rut in the road, and the sergeant, who is a heavy man, was spilled out, but his son was dragged along until the horses ran into a tree. They were then stopped by some farmers, who lifted the wrecked hayrake from the boy and took him and his father to their home.

A physician was summoned and he found the ex-

NEW-YORK CITY.

George P. Ely, of No. 42 East Thirtieth-st., who was selzed with a slight attack of apoplexy at the Ninth-st. station of the Third-ave, elevated railroad on Tuesday night, has almost completely recovered from his illness. He was well enough yesterday to be at his office, at No. 130 Front-st., for the greater part of the day. Mr. Ely has been subject to similar attacks for some time, and his friends do not believe this one to be at all serious. Mrs. E. R. H., of Onelda, has written to the

Tribune, asking for the name or names of the Regent or Regents of the original organization of the Daughters of the Revolution. The general secretary of the society is Mrs. L. Holbrook, of No. 128 West Fifty-ninth-st., New-York. Judgment for \$35,271 was entered yesterday against

the Ball Electric Light Company, of No. 404 West Twenty-seventh-st. and of Chicago, in favor of Royal E. Ball, for royalties on his patent for manufacturing regulators for dynamo electric machines. Colonel W. L. Brown, the president, said the judgment was a friendly one to protect Ball's interest as he was the largest stockholder, and it could easily be met, if he should press it. The Metropolitan Museum of Art is open free to

the public from 10 a. m. to sunset on Tuesdays Wednesdays, Thursdays and Saturdays, on Sunday afternoons from 1 o'clock to sunset, and on the evenings of Mondays and Fridays. On Mondays and Fridays from 10 o'clock until sunset copyists, art students and members of the Museum only are admitted free; others have to pay an entrance fee of 25 cents on these two days. There is a good public restaurant in the building, and there is also a place to store bleycles.

FOR THE PROPOSED CHARTER.

REPRESENTATIVES FROM THREE COUNTIES MEET TO DISCUSS THE POWERS OF THE MUNICIPAL ASSEMBLY.

The Boards of Supervisors of Kings and Richmond countles met yesterday with the Legislative Committee of the New-York Board of Aldermen at the City Hall, on the invitation of the latter, to discuss in joint session the powers that should be vested in the Municipal Assembly under the proposed charter of the Greater New-York. There were present at the meeting, representing New-York County, Aldermen Muh, Wines, Goodman and Windolph; for Kings County, Aldermen Guilfoyle, Taylor, Francisco and Wassmuth, and for Richmond County Supervisors E. P. Doyle, Dr. John L. Feeny and John J. Kenny. Queens County was not

for the co-operation of the Supervisors of the counties sought to be annexed was read by Chief Clerk Ten Eyck, with the fivitations extended to the Supervisors and their repiles. Queens County did not respond to the invitation. Vice-President John P. Windolph was elected chairman of the nuceting, and Mr. Ten Eyck secretary.

Alderman Francisco stated that the Queens County men had not received notice of the meeting, and suggested that another notice be sent if em. The suggestion was adopted. Supervisor Doyle moved the appointment of a committee of four-one representative from each county-to form a plan of permanent organization. The motion was adopted, and the committee named as follows. Supervisor Doyle, of Hichmond; Alderman Wassmuth, of Kings, and Alderman Goodman, of New-York. The Queens County member will be named later.

Alderman Guilfoyle moved that to each county seven votes be accorded. The motion was adopted. Adjournment was then taken until August 10, at 2 o'clock in the afternoon.

In connection with the fiscussion of the borough system as embodied in the draft of the first five chapters of the Greater New-York charter, a citizen of Westchester, who is well-known for his researches into the history of the district above the Harlem River, but who requests that his name be not used, said yesterday: "The Sub-Committee on Draft provides for only one borough above the Harlem River, and this is to be called the Borough of the Bronx. Now, about two-thirds of the city's lot area lies above the Harlem. The time will probably come when there should be two boroughs for the whole district annexed since 1874. Should that be done, the new district should be called the Borough of Westchester. And that would be a most remarkable coincidence, for under an old charter granted by the King of England there was a Borough of Westchester, and this just about covered the area east of the Bronx River, which was annexed in 1895.

"This Borough of Westchester had a Mayor and a Board of Aldermen to govern it. When the Revoluti
